

## IKLIPSE RESET · STANDARD OPERATING PROCEDURE

# SOP 13 — Working Hours, Attendance & Overtime

The 11-hour bracket, 9-hour productive minimum, break protocol, and the capped, paid overtime framework.

TIER 1 · EMPLOYEE-FACING

**Read together with:** SOP 11 (Time Adherence), SOP 07 (Holiday/Time-Off), and SOP 08 (KPI Scoring).

## 1. The Working Schedule & Days Off

**Everybody is off Saturday and Sunday, no exception.** The only exceptions are the owners and their assistants.

### The 11-Hour Bracket

The standard working hours for ALL team members are fixed within an 11-hour daily bracket, regardless of prior arrangements.

| Start Time | Final Log-Off | Requirement                                                                                              |
|------------|---------------|----------------------------------------------------------------------------------------------------------|
| 11:00 AM   | 10:00 PM      | Must be available and working on a computer at a distraction-free work station (not remotely from home). |

**Exceptions to the bracket:** Require a same-day request via a ticket. If the ticket is not answered, the answer is officially **NO**.

## 2. Productive Hours & Breaks

### 9 Productive Hours

Within the 11-hour bracket, a minimum of **9 productive, active, uninterrupted, fully-trackable hours** is required.

### 1 Hour Break Max

A maximum of **1 hour total break** is allowed per day.

### Button Check-In Protocol

The old "announce your break" message is replaced by a **button press** in the employee management system that automatically notifies management. Break start and end times must be clearly visible to management via the system.

## 3. Overtime & Extra Hours Protocol

The nature of our work requires accommodating extra hours. The new system replaces the old "uncapped, uncompensated" model with a structured, capped framework.

### Notice Standards

| Scenario                                      | Notice Given          | Requirement                                                                                                             |
|-----------------------------------------------|-----------------------|-------------------------------------------------------------------------------------------------------------------------|
| <b>Large projects</b> (known in advance)      | <b>2–3 days ahead</b> | Nabil's responsibility to notify the team.                                                                              |
| <b>Urgent tasks</b> (from Biker or Nabil)     | <b>Immediate</b>      | Team members must be willing and ready to <b>cancel plans</b> . Anything requested by Biker or Nabil is default urgent. |
| <b>Normal tasks</b> (from Sama, Sameh, Yusuf) | Standard              | Not auto-urgent. Follows normal channels.                                                                               |

### The 10-Hour Monthly Cap

**10 additional hours per month** spread out, with NO specific reason or justification required from management, are expected and required.

Any hours requested beyond the 10-hour cap will be **compensated as paid overtime**. Extra-hours requests may only come via Sama, Biker, Nabil, Sameh (Nabil's assistant), or Yusuf (on Biker's behalf).
